

DOTORI KOREAN LANGUAGE

OUR **KOREAN** LANGUAGE PROGRAM'S CORE PILLARS

Dotori's Korean program is built on three pillars—Learning in Context, Language Connection, and Joyful Learning—designed to help students build meaningful communication skills through engaging, culturally rich experiences.

LEARNING IN CONTEXT

Learn Korean through real-life topics, stories, and cultural contexts that make language use authentic and meaningful.

LANGUAGE CONNECTION

Explore links between English and Korean to deepen understanding, transfer skills, and strengthen bilingual competence.

JOYFUL LEARNING

Engage in fun, interest-based activities—such as games, songs, and projects—that connect to students' own lives and Korean culture.
